

WHEELS RALLYE TEAM

STREETS OF FURY

GENERAL INSTRUCTIONS

ABOUT THE RALLYE

Welcome to Streets of Fury, a gimmick road rallye designed and presented by the Wheels Rallye Team.

This rallye is designed to run on physical roads or to use Google Street View. You can run safely in your car or at your computer.

You travel the course by route instructions and these general instructions.

Each route instruction will be numbered and they are to be performed in ascending consecutive numerical order, beginning with route instruction 1, by physical evidence seen from the course. Each route instruction must be completed before beginning to work on the next numbered route instruction. Sometimes you do not have a route instruction or general instruction to perform at an intersection,

when that occurs, follow the obvious route, which is Right at Tee, straight as possible. In all cases you must follow the order of precedence (from highest precedence to lowest): General Instructions minus the Obvious route sentence, then (fallback) the obvious route. You will never have to look for physical evidence directly behind. Make no U turns except at cul de sacs.

Road names must be spelled correctly but prefixes to a road name such as N,S, W, E, Old, New are irrelevant. Avenue = lane = street = dr = rd = st = ave, etc. are irrelevant on a street sign.

Instructions 8 through 18 are part of a special instruction. Perform it as described.

Consider road segments marked by a sign reading “no outlet”, “dead end” “blind” or “private” as nonexistent. Consider private property with the exception of the starting and ending parking lot to be nonexistent (to drive upon). Driveways and alleys and Kingsley St (construction) are nonexistent. Church and any factory and school roads are nonexistent. For safety use a tad more while driving through residential areas.

Never pass first street, Some Words all in capital letters may be scrambled and you should unscramble them if necessary.

Information enclosed in parentheses is helpful information only and not an official part of the rallye. You should not get lost. We use pick up points throughout the rallye, so you won't be lost on an island, just go to the nearest intersections described by the pick up points.

STOP—an official highway (street) sign containing the word STOP at an intersection.

CROSSROAD—A road that crosses your road.

TEE—An intersection in the general shape of the letter T, where you have a chance to go right and a chance to go left but no chance to go straight.

SIDEROAD—A road that extends in only one direction from your road.

MARKED SIDEROAD—A sideroad that is preceded by a marked sideroad sign as shown below:

AT—In the immediate proximity of a sign, landmark, object or road.

AFTER—Completely past the sign, road, landmark or object referred to.

DIRECTION—Right or Left

OPPORTUNITY—A named road in the direction stated.

SIGNS AND MISDEMEANORS

A sign is any structure containing words and/or numbers or and/or road depictions. Separate signs on or attached to the same structure are the same sign. Quoted words in the instructions, “example”, refer to actual letters and numbers on a sign. Spacing and font are irrelevant. Words in the route instructions that are entirely in capital letters may be scrambled and can be scrambled into other words if necessary, otherwise case type of letters is irrelevant. Signs may be referred to in whole or in part. Signs may be quoted in full or in part. Only numbers and letters will be quoted. Punctuation and artwork on a sign are nonexistent. Spelling must be exact.

QUESTIONS You will be presented with questions throughout the rallye. Each question will be indicated by the letter Q and a number and finished with a question mark. Answer a valid question from the completion of the numbered route instruction above it, to the completion of the numbered route instruction below the question. Answer all valid questions. Put your answers on the scoresheet in the spaces provided.

STREETS OF FURY ROUTE INSTRUCTIONS

1. . Start at Barrington Square Town Center on Higgins Road just east of Barrington Road in Hoffman Estates. West out of the parking lot then Right AT Barrington Road.

2. Left at Hassell Rd. (at Mobil station).
