WHEELS OF FORTUNE

Definitions

At—In the immediate proximity of the sign, location, object or road described.

Stop Sign—An official highway sign that contains the word “stop” at which you are obligated by law to stop.

Sideroad - A named road that extends one way from the road you are traveling.

End—the end of a name or numbered street upon which you are traveling.

Opportunity—a named road other than the one you are traveling.

After—completely past the referenced object, sign, street or location.

Tee—Where two roads meet in the general shape of the letter T, where you have a chance to go left and a chance to go right but no chance to go straight.

Intersection—the meeting or crossing of two or more named roads.

Welcome to the third Wheels Event of the year, WHEELS OF FORTUNE. This event can be run on the streets or can be run from home on Google Street View. The object is simple, you drive along and look for signs that are missing letters and fill in those missing letters as you go. For example, if you see a sign, “Wildlife Area Ahead”, we may quote it as

P96. “Wildlife - - - - Ahead”

You would simply fill in the letters AREA to complete the quote. No letters are ever skipped and the amount of letters must coincide with the number of dashes. Fill in on your scoresheet the letters filled in in the corresponding spaces for them. Each quotation is preceded by a capital letter P (short for puzzle and a number (P55, P 56, etc.). Signs for the puzzles must be quoted.

Of course you may not see some, some aren't here at all, and we have thrown some route tricks into the course to make it more fun. So read the rest of these general instructions completely to have knowledge on how to run the course.

Route Instructions

You will have route instructions to direct you through the course. This page is your general instructions which set up the rules of how to run the rallye.

Route instructions give you direct actions to perform and each route instruction is numbered and you should perform the route instructions in ascending consecutive numerical order, beginning with route instruction 1 by physical evidence you see from the course at the first chance to do unless otherwise stated.

Road segments marked as “No outlet”, “Dead end”, or “Private” are nonexistent. Private property, driveways, alleys and parking lots are nonexistent. These Prefixes to road names are irrelevant, old, new, N, S, E, W, north, south, east and west are irrelevant. The words old and/or new are nonexistent on a sign. St = street =avenue = ave = Tr = Ln= road= trail = boulevard. etc. Obey the law.

Signs will be quoted from left to right top to bottom, Spacing, case type and font are irrelevant. Everything must be spelled correctly. Signs will never appear directly behind. Only signs will be quoted. Be sure and drive carefully and turn around carefully you don't want to back up and put your car in reverse. In addition you should Turn on Home. Punctuation and artwork are nonexistent on a sign. Don't use any liquor. Signs may be quoted in full or in part.

A puzzle, indicated by a capital letter P and a number, can be answered from the completion of the route instruction immediately above to the completion of the route instruction immediately below.

Information enclosed in parentheses in the route instructions may be helpful to indicate a situation or road name but is not an official part of that rallye; i.e. All information enclosed in parentheses in a route instruction from the first parenthesis to the last parenthesis in the same route instruction is non-existent. Pick up points will be indicated by double asterisks and the words Pick Up Point. There are never any gimmicks concerned with pick up points. Left on Webley. Erse = er.

The obvious route is the route you travel between instructions, it is Right at Tee, straight as possible.

If you have a chance to do more than one type of instructions at an intersection you should do th one of highest priority: General Instructions minus the obvious route paragraph, route instructions, obvious route.

Wheels Of Fortune Route Instructions

1 Start at Woodfield Mall and go West on Golf then Left on Meacham.

P1 "WEIGHT LIMIT - -TONS"

p2 "PUNCH- - - - SOCIAL"
