2. Website Definition

This section lays out the purpose of the website, the intended audience and site content.

2.1 Purpose

The purpose of this website is to create an online magazine that contains reviews for multiplayer online role-playing games. There are hundreds of MMORPG’s on the market and plenty of free ones as well.
2.2 *Intended Audience*
This magazine will be a resource for those searching for an MMOPRG suited to their needs. It is intended for an audience age 13 and up.

2.3 *Site Content*
This site will contain review articles about a variable amount of MMORPG’s each month. At the end of each month, the Editor will compile all submitted reviews and post them the first of the month, replacing current issue link with new current issue and updating upcoming.html page.

The reviews will be formatted using a table and will contain: author’s name(s), game rating, game website, genre, payment type, and reviewer’s comments about the game. People other than the developer may write the reviews.

The website will contain an “about” page containing the magazine’s purpose and details.

This site will contain contact and team information that will contain names and e-mail addresses for the developer team and for reporting issues.

3. **Deliverables**
- Complete online magazine website
- Seven content pages
- Design standard.html page
- CSS stylesheet
- Formatting template
- Header/Footer/Menu pages with virtual includes

4. **Site Hosting**
This site will be hosted and uploaded to my student folder of “design” on the itwebmaster.iit.edu server; full path is at http://itwebmaster.iit.edu/~kimndeb/design.

5. **Site Promotion**
This site will have the keywords:
- Magazine
- MMORPG
- Massively Multiplayer Online Role Playing Game
- Online Game
- Role Playing Game
- Multiplayer Online Game
- Review

This site will also be published to Google’s database.
